Contents

Section 1: Neurons Communicate

Neurons rapidly transmit information over long distances in a series of electrical pulses called action potentials.

- Sensing Pain
- What is Pain?
- Neuron Anatomy
- Membrane Potential
- Membrane Potential Changes Over Time
- Stimulus Threshold
- Muscle Contraction
- Lidocaine
- Section Summary

Section 2: Ion Movement

The action potential is generated by the movement of sodium and potassium ions across the cell membrane through voltage-gated ion channels.

- Neurons and Electricity
- Ions Move Through Cell Membranes
- Ion Movement Changes Membrane Potential
- Ion Channels: Key Concepts
- Voltage-Gated Channels
- Phases of the Action Potential Puzzle
- Myelination
- Section Summary

Section 3: Action Potentials Challenge

An experimental section for further exploration of action potentials.

- Explore More
- Action Potential Sandbox
- Changing Concentrations

Section 4: Graded Questions
