

Updated Exploitative Interactions Chapter (10/2026)

The 2026 Exploitative Interactions chapter (formerly Predation, Parasitism and Herbivory) is revised. Key changes include:

ORIGINAL (2010)	REVISED (2026)
Name Change: Predation, Parasitism and Herbivory	Name Change: Exploitative Interactions
PART 1:	PART 1:
Species Interactions Interactive table, part 1, page 2.	Species Interactions Species Interactions is now heavily revised and is now an interactive grid. It's been updated to include new interactivity, and some new species interaction stories. New instant-feedback question added to page 1.2 to help students check their understanding. An editorial adjustment in Part 1 has been made so that we're no longer implying that "parasites" and "bacteria" are mutually exclusive.
PART 5:	PART 5:
The Evolutionary Arms Race	Part 5 has been removed—it now exists in an <i>extended</i> form in our new chapter: Species Interactions and Coevolution!
